

Iglesia Cristiana
Concordia

CAMPUS CONCORDIA

Arequipa - Peru

01

STAGES

01

Basement

During this first stage of construction of the temple's foundations and bases, this part has been designated as the current temple and is currently completed.

02

Sanctuary

We have divided this stage of the church into phases: walls, mezzanine, and front; we have currently completed the first phase.

03

Ceiling

This stage has been divided into two phases depending on the construction materials: metal and concrete.

STAGE 1: BASEMENT

02

Start

God helped throughout this process, and we were blessed with the help of missionaries to complete this stage.

In progress

During this stage, the church maintained a profile of unity and love for the beginning of the project and was eagerly awaiting the completion of the basement.

Culmination

At the end of this stage, we are currently using this area as a temple to the present, serving as a blessing to the community.

STAGE 2: SANCTUARY

03

Start of Phase 1

In 2024, thanks to the generosity of our church members, a budget was raised for the second phase.

Process

During this phase, it was proposed to raise the columns and walls of the temple to complete this stage and move forward with the project.

Phase 1 completed

Thanks to God's blessing, it was possible to build it with a budget of 35 thousand soles, and thus we were able to complete this phase of the temple.

PHASE 2: MEZZANINE

04

Phase 2 Start

In 2025, thanks to the generosity of the brothers and sisters of our church, it was possible to raise the necessary budget to carry out the second stage of the project.

Process

During this phase, it was proposed to carry out the roofing and construction of the walls of the Mezzanine, with the purpose of completing this stage and continuing with the progress of the project.

Phase 2 completed

Thanks to God's blessing, the roofing and future walls of the front, bathrooms, office and mezzanine have been completed to continue with this phase.

PHASE 2

Budget by stages:

\$
8k

FRONT-MEZZANINE

This phase is currently in the works, and thanks to the generosity of church members, we are gradually raising the funds to complete it this year, 2025.

\$
4-18k

ROOF: Metal, Concrete

Once phase 2 is complete, we are projecting two budgets based on materials: a metal roof is budgeted at 4K and a concrete roof at 18K.

\$
30k

COMPLETE PROJECT

An estimate has been made to determine the total budget cost for phases 2 and 3, which includes the mezzanine, front wall, bathrooms, and roof.

2025**

PRAY FOR OUR MINISTRIES

We thank every person, family, and ministry that has sown with love, effort, and prayer to make this vision a reality. May every stone placed, every hand that served, and every heart that believed receive abundant blessings.
